Road Department's daily plan moves online

FOR IMMEDIATE RELEASE, JANUARY 18, 2019:

NEW BRAUNFELS — Comal County's daily road-maintenance plan is now available in map form online to help residents better plan for potential disruptions or distractions on their commute.

The daily plan comprises the road-maintenance projects county crews are scheduled to work on that day. By visiting the Comal County Engineer's Office webpage, www.cceo.org, residents can see where in the county crews are expected to be and get more details about what they'll be doing.

"This is a great way for our Road Department to let the public know what our crews are doing," said Tom Hornseth, county engineer, "and helpful for drivers and other residents who may want to know about work taking place in their neighborhoods or along their route to work."

Hornseth cautioned that the daily plan is subject to change depending on weather, urgent repairs or other unforeseen circumstances.
