

Answers to the questions regarding Bid 2013-106 (MRF) 05/08/13

- 1) Did Comal County sell, market, transport or otherwise cause to be transported to an end use market or disposal facility, any baled recyclables other than e-waste in the past year (from this date to past 12 months)?  
**No.**
- 2) If so, what was the tonnage of each type of bale (paper, aluminum, etc.) and price received or paid for these bales?  
**N/A**
- 3) Does the County anticipate creating and making available for market any baled recyclables during the term of the forthcoming contract period (Bid # 2013-106)?  
**The bid package asks for a quote for baled recyclables.**
- 4) If so, does the County have any estimate of the respective tonnages that may be available?  
**No.**
- 5) In what type and size of vehicle does the County intend to deliver commingled (single stream) recyclables to the MRF or processor?  
**Rear-loading compaction garbage trucks.**
- 6) Will the material be loose, compacted or densified?  
**Compacted.**
- 7) Will the County perform any type of quality control inspection and removal of recyclables or contaminants or hazardous materials prior to the delivery to the MRF or processor?  
**See Technical Specification 2.3.2 and 2.4.6.**
