**Public Health Office to be closed next week**

**FOR IMMEDIATE RELEASE, OCTOBER 20, 2015:**

*NEW BRAUNFELS* — The Comal County Public Health Office will be closed the week of Oct. 26 as it moves from its current location into newly renovated space at the former Goodwin Elementary School campus.

The 12-person office, located on the second floor of the Landa Building at 178 E. Mill St. in downtown New Braunfels, will close at the end of business Friday, Oct. 23, and reopen Monday morning, Nov. 2, at the county's Goodwin Annex, 1297 Church Hill Drive.

The move comes after a \$400,000 renovation this summer of an 8,000-square-foot wing of the former elementary school that had not yet been converted to county office space. Other wings house the county's offices of Human Resources, Purchasing, Indigent Health and Veterans Administration, as well as a training room and overflow space for sheriff's deputies.

"We are excited to be able to offer our services to Comal County residents in a larger, more accessible space," said Gwen Mills, the county's public health director. "This move will help us provide health screenings, vaccines and other services quicker and more efficiently."

Although the transition will include its share of typical packing and unpacking of boxes, it also features the more delicate process of moving vaccines across town. Refrigerators and a freezer for the vaccines were installed in September, and sensors have been monitoring their temperatures to ensure they will keep the vaccines cold once the office settles into its new space.
