New Braunfels	35
N of Canyon Lake	1
S of Canyon Lake	2
S Comal County (Garden Ridge)	0
Bulverde/Spring Branch	3
Fair Oaks	0

Age Range:	Number of new cases:
Under 20	9 (one infant under 12 months)
20's	4
30's / 40's	16
50's / 60's	10
70 and older	2

There are an additional 17 COVID-19 recoveries in Comal County.

The total recovered is 3,720.

The County now has 290 active confirmed and probable COVID-19 cases.

Of those, seven are hospitalized.

On Monday, Comal County hospitals reported caring for 18 COVID-19 patients; of those, six are in intensive care, and three are on ventilators. Not all of these patients are necessarily county residents; likewise, not all county residents hospitalized with COVID-19 are in Comal County hospitals.

As of Monday morning, Public Health has received reports of the following test information:

- 31,854 tests conducted
- 3,000 confirmed cases
- 1,131 probable cases
- Three suspect cases

The seven-day positivity rate for Monday in Comal County is 10.42%.

Of the 4,134 confirmed and probable COVID-19 cases in Comal County, the location breakdown is:

Location:	Number of cases total:
New Braunfels (Includes Eastern and Central Comal Co.)	3,018
Western Comal County (Includes Bulverde and Spring Branch)	615
South of Canyon Lake	206
North of Canyon Lake	146
Southern Comal County (Includes Garden Ridge and Schertz)	135
Fair Oaks Ranch	14

Residents wishing to be tested for COVID-19 can call the County's dedicated hotline, 830-221-1120, between 8 a.m. and 5 p.m. Monday through Friday to schedule an appointment.

Testing is only done on Tuesday and Friday, and you must have an appointment.

Probable case definition

“Probable case” is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive* laboratory evidence.
 - Presumptive* laboratory evidence:
 - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County’s positivity rate and total case tally.

Suspect case definition

A “Suspect case” meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

Supportive Laboratory Evidence means:

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen**
