50's / 60's	26
70 and older	7

There are an additional 77 COVID-19 recoveries in Comal County. The total recovered is 4,999.

On Wednesday, Comal County hospitals reported caring for 70 COVID-19 patients; of those, 16 are in intensive care, and ten are on ventilators. Not all of these patients are necessarily county residents; likewise, not all county residents hospitalized with COVID-19 are in Comal County hospitals.

As of Wednesday morning, Public Health has received reports of the following test information:

- 40,935 tests conducted
- 3,854 confirmed cases
- 2,067 probable cases
- Nine suspect cases

The seven-day Molecular positivity rate for Wednesday in Comal County is 26.45%.

The seven-day Antigen positivity rate for Wednesday in Comal County is 25.16 %.

Of the 5,930 confirmed and probable COVID-19 cases in Comal County, the location breakdown is:

Location:	Number of cases total:
New Braunfels (Includes Eastern and Central Comal Co.)	4,295
Western Comal County (Includes Bulverde and Spring Branch)	881
South of Canyon Lake	321
North of Canyon Lake	229

Fair Oaks Ranch	22

Residents wishing to be tested for COVID-19 can call the County's dedicated hotline, 830-221-1120, between 8 a.m. and 5 p.m. Monday through Friday to schedule an appointment.

Testing is only done on Tuesday and Friday, and you must have an appointment.

Comal County's Public Health Department reminds every one of the importance of following CDC guidelines of wearing a face covering, social distancing, staying home when you are sick and hand hygiene.

Probable case definition

"Probable case" is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive* laboratory evidence.
 - Presumptive* laboratory evidence:
 - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County's positivity rate and total case tally.

Suspect case definition

A "Suspect case" meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

Supportive Laboratory Evidence means:

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen.**
