**The Comal County COVID-19 Vaccine Standby List is open to adults 18 and older.**

**Residents interested in receiving a COVID-19 vaccine can visit [www.co.comal.tx.us](http://www.co.comal.tx.us) to register.**

**The Comal County Health Department administers the Moderna Vaccine, which is used for those 18 years of age and older.**

**Registering online is the best option for residents because phone resources are limited.**

**Those who do not have computer access or need assistance can call 830.620.5575.**

Vaccines will be distributed to the public as they are received by Comal County and according to all state distribution guidelines.

**Probable case definition**

“Probable case” is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive\* laboratory evidence.
  - Presumptive\* laboratory evidence:
    - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County’s positivity rate and total case tally.

**Suspect case definition**

A “Suspect case” meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

**Supportive Laboratory Evidence means:**

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen.**
