**Those interested in receiving a vaccine can schedule an appointment by visiting [www.mycomalcounty.com](http://www.mycomalcounty.com)**

Vaccines will be distributed to the public as they are received by Comal County and according to all state distribution guidelines.

#### **Probable case definition**

“Probable case” is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive\* laboratory evidence.
  - Presumptive\* laboratory evidence:
    - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County’s positivity rate and total case tally.

#### **Suspect case definition**

A “Suspect case” meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

#### **Supportive Laboratory Evidence means:**

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen.**
