Fair Oaks Ranch	54

**Comal County Public Health Department is now administering (Moderna) COVID-19 vaccines.
 Those interested in receiving a vaccine can call 830.221.1150 to schedule an appointment.**

Probable case definition

“Probable case” is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive* laboratory evidence.
 - Presumptive* laboratory evidence:
 - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County’s positivity rate and total case tally.

Suspect case definition

A “Suspect case” meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

Supportive Laboratory Evidence means:

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen.**
