Comal County reports 37 new COVID-19 cases; 26 recoveries

FOR IMMEDIATE RELEASE: June 28, 2021:

NEW BRAUNFELS — Comal County reports 37 new COVID-19 cases today, bringing the County total to 11,284. 19 are confirmed cases, and 18 are probable cases. Total number of deceased remains 325.

There are 215 active confirmed and probable cases in the County today. Of those, 14 are hospitalized. There are another 26 COVID-19 recoveries to report today. The total recovered is 10,744.

Region:	Number of new cases:
New Braunfels	30
N of Canyon Lake	1
S of Canyon Lake	2
S Comal County (Garden Ridge)	2
Bulverde/Spring Branch	2
Fair Oaks	0

Age Range:	Number of new cases:
Under 20	7
20's	4
30's / 40's	17
50's / 60's	8
70 and older	1

On Monday, Comal County hospitals reported caring for 14 COVID-19 patients; of those, four are in intensive care. One person is on a ventilator. Not all of these patients are necessarily county residents; likewise, not all county residents hospitalized with COVID-19 are in Comal County hospitals.
Today's TSA P percentage is 2.5%.

As of Monday morning, Public Health has received reports of the following test information:

- 108,845 tests conducted
- 6,035 confirmed cases
- 5,225 probable cases

- 24 suspect cases

The seven-day Molecular positivity rate for Monday in Comal County is 3.87%.

The seven-day Antigen positivity rate for Monday in Comal County is 5.63%.

Of the 11,284 confirmed and probable COVID-19 cases in Comal County, the location breakdown is:

Location:	Number of cases total:
New Braunfels (Includes Eastern and Central Comal Co.)	8,023
Western Comal County (Includes Bulverde and Spring Branch)	1,622
South of Canyon Lake	642
North of Canyon Lake	534

Fair Oaks Ranch	55

Comal County Public Health Department is now administering (Moderna) COVID-19 vaccines for those 18 and older as well as Pfizer vaccines for anyone 12 years old and older.

Those interested in receiving a vaccine can call 830.221.1150 to schedule an appointment.

Probable case definition

“Probable case” is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive* laboratory evidence.
 - Presumptive* laboratory evidence:
 - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County’s positivity rate and total case tally.

Suspect case definition

A “Suspect case” meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

Supportive Laboratory Evidence means:

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen.**
