Fair Oaks	1

Age Range:	Number of new cases:
Under 20	92
20's	31
30's / 40's	90
50's / 60's	48
70 and older	18

On Tuesday, Comal County hospitals reported caring for 51 COVID-19 patients; of those, 15 are in intensive care, and six are on ventilators.

Approximately 95% of these patients are unvaccinated.

Not all of these patients are necessarily county residents; likewise, not all county residents hospitalized with COVID-19 are in Comal County hospitals.

Today's TSA P percentage is 16.81%.

Comal County Public Health Department is administering Moderna COVID-19 vaccines for those 18 and older and Pfizer vaccines for anyone 12 years old and older.

Those who are moderately to severely immunocompromised and qualify for a 3rd dose can also call to schedule an appointment for a vaccine.

Appointments can be made by calling 830.221.1150.

As of Tuesday morning, Public Health has received reports of the following test information:

- 160,920 tests conducted
- 9,855 confirmed cases
- 7,400 probable cases
- 24 suspect cases

The seven-day Molecular positivity rate for Tuesday in Comal County is 14.68 %.

The seven-day Antigen positivity rate for Tuesday in Comal County is 9.85 %.

Of the 17,279 confirmed and probable COVID-19 cases in Comal County, the location breakdown is:

Location:	Number of cases total:
New Braunfels (Includes Eastern and Central Comal Co.)	11,708
Western Comal County (Includes Bulverde and Spring Branch)	2,756
South of Canyon Lake	1,174
North of Canyon Lake	984
Southern Comal County (Includes Garden Ridge and Schertz)	577
Fair Oaks Ranch	80

Probable case definition

"Probable case" is a category established by the Texas Department of State Health Services to describe those who do not have a positive PCR test for COVID-19 but meet two of the following three criteria:

- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2.
- Meets presumptive* laboratory evidence.
 - Presumptive* laboratory evidence:
 - Detection of SARS-CoV-2 by antigen test in a respiratory specimen
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

A probable case is treated identically to a confirmed case and counts toward the County's positivity rate and total case tally.

Suspect case definition

A "Suspect case" meets supportive laboratory evidence with no prior history of being a confirmed or probable case. It is also counted towards the total case tally.

Supportive Laboratory Evidence means:

- **Detection of specific antibody in serum, plasma, or whole blood**
- **Detection of specific antigen by immunocytochemistry in an autopsy specimen.**
