“PAVING THE PATHWAYS OF A STRONGER COMMUNITY THROUGH KNOWLEDGE”

PREPARED BY THE TRAINING DIVISION
OF THE COMAL COUNTY SHERIFF'S OFFICE

“COURTESY – SERVICE – PROTECTION”

In an effort to bring about a closer working relationship between the Comal County Sheriff's Office and the citizens of Comal County, a Citizens Sheriff's Academy is being established. The goal of the Comal County Sheriff's Office is to create a cooperative atmosphere between the law enforcement community and all segments of the public sector through knowledge and awareness.

Awareness in the form of a two-way learning experience: Comal County citizens will be afforded the opportunity to learn the inner workings of the Sheriff's Office. Our officers will be able to learn more about residents of the county and what the residents' expectations are in regard to law enforcement.

The citizens of Comal County will gain an insight into the who, what, when, where, whys of law enforcement by having the deputies and other officers explain their responsibilities. It will also allow the members of the Sheriff's Office to meet and interact with citizens of the county and get to know their feelings and expectations.

The Citizens Sheriff's Academy will provide an interactive setting where an exchange of information will ultimately lead to a cooperative awareness between the citizen and the Sheriff's Office.
